all over two copies, 6 1/2 cents each.  
Advertising rates given upon application.

THURSDAY, JULY 22, 1897.

MYRON H. MCCORD was confirmed  
Governor of Arizona Saturday by a  
vote of 55 to 7.

THE buffalo is not yet extinct. A  
herd of almost 80 was recently seen in  
Buehel county, Texas.

CHARLES CHRIST of Nogales has been  
appointed by President McKinley  
surveyor-general of Arizona.

Governor MCCORD has a libel suit  
against the New York World, and is  
detained in the East in prosecuting it.

THREE boys fell asleep on the rail-  
road track at Austin, Texas, recently  
and were run over and killed by a  
freight train.

THE first vice-president of the South-  
ern Pacific railroad company, Col. C.  
F. Crocker, died Saturday at his home  
in San Mateo, Cal.

It is estimated that it will require  
the services of 100 persons for three-  
months to count the \$700,000,000 in  
the national treasury in Washington.

ACCORDING to statistics there were  
209,836 head of cattle shipped out of  
Arizona in 1896, and 24,097 killed for  
home consumption. The value of the  
cattle shipment for last year was \$2-  
500,000.

ONE E. B. Carter, who plead guilty  
to embezzling \$30,000 of the funds of  
the National Bank of Commerce of  
New York and was sentenced to six and  
one-half years in the penitentiary, has  
been pardoned by President McKinley.

It looks as though the Younger  
brothers, Cole and Bob, will receive  
executive clemency. They are two of  
the most noted murderers and out-  
laws on record, and the Journal-Miner  
in speaking of them, says: The  
Younger brothers should be thankful  
for the miscarriage of justice which  
to-day permits them to be alive at all.  
Had justice been meted out to them  
as they deserved, their worthless car-  
casses would years ago have been  
eaten by worms, and to-day nothing  
would be left of them but a memory  
of their crimes.

## PROGRESSIVE FLAGSTAFF.

Many people no doubt imagine  
Flagstaff, from its peculiar name for  
a town, is but a flag station. Such is  
not true by any means. It is a pro-  
gressive little city of 2,000 inhabitants,  
beautifully located at an altitude of  
6,865 feet at the foot of the San Fran-  
cisco mountains and surrounded by  
towering pines, being the gateway to  
the Coconino forest, the largest in the  
United States, as well as the Grand  
Canyon, which is but 72 miles distant,  
being an easy ride of twelve hours, and  
stages go regularly three times a  
week. Travel to the Grand Canyon is  
increasing, more people having gone  
during the first ten days of July than  
during the entire month of June.

As the center of scenic beauty Flag-  
staff is the first city in America, as it  
is also in point of climate. At present  
it seems like April or October in the  
Salt River valley, as men wear coat  
and vest with felt hat throughout the  
day. It does not frost at night yet it  
is necessary to sleep under blankets.  
Coconino is one of the rich counties in  
natural wealth, there being lumber  
from the inexhaustible forest supply,  
the entire area grazing lands with  
plenty of sheep and cattle, while  
farming goes on extensively in the  
mountain valleys.

Flagstaff has also plenty of rich  
mineral in the near vicinity, includ-  
ing gold, silver, copper and the famous  
red sandstone; besides onyx in large

quantities is picked up as float and is  
also found in ledge form. It is of a  
reddish tinge and takes an excellent  
polish.

During the next sixty days the  
people of Phoenix and Salt River  
valley who desire an outing can find  
no place where they can enjoy life  
better than by coming to Flagstaff.  
This is the ideal summer climate.—  
Phoenix Gazette.

## BALANCE ON HAND, \$53.70.
